

THE EVENING BULLETIN.

VOLUME X.

MAYSVILLE, KY., MONDAY, SEPTEMBER 14, 1891.

NUMBER 251.

PROFESSIONAL AND BUSINESS CARDS.

FRANK P. O'DONNELL,

ATTORNEY

And Counsellor at Law. Practices in Mason and adjoining counties. Office in building of Wadsworth & Son.

L. W. CALBRAITH,

ATTORNEY

And Counsellor at Law. Practices in the courts of Mason and adjoining counties. Prompt attention paid to collections.

W. S. YAZELL,

Second Street, Fifth Ward,

PHYSICIAN AND SURGEON.

Office opposite Collins & Rudy's Planing Mill.

SAMUEL PANGBURN,

North Side of Third Street,

PHYSICIAN AND SURGEON.

Office 31 Third Street, West of Market.

DR. P. G. SMOOT,

—Homeopathic—

PHYSICIAN AND SURGEON.

Office Hours—7 to 9 a. m., 1 to 3 p. m., 7 to 9 p. m. Office, No. 34 Second St., late Dr. Holton's office.

C. W. WARDLE,

DENTIST.

ZWIGART'S BLOCK.

DEWITT C. FRANKLIN,

DENTIST.

WEST SUTTON STREET.

T. H. N. SMITH,

DENTIST.

EAST SECOND STREET.

DR. PARIS WHEELER,

Office at Daulton Bros.' Stables,

VETERINARY SURGEON.

Cures all cases of lameness or no charge. Has a blister from French school that will not bluish.

J. J. FITZGERALD,

Successor to T. J. Curley,

SANITARY PLUMBER

And Steam and Gas Fitter. All work done in the best manner. Satisfaction guaranteed.

M. R. GILMORE,

Granite, Marble and

FREESTONE WORKS.

All kinds of Monumental work done in the best manner. Second street, above opera house.

A. SORRIES,

Second Street, Near Limestone,

LOCK AND GUNSMITH.

Repairing of all kinds done promptly and on reasonable terms.

S. D. THOMPSON,

Adjoining P. J. Maley's Grocery,

LOCK AND GUNSMITH.

Locks adjusted, Keys fitted, Guns, Bicycles, etc., repaired. House Smithing a specialty.

H. L. COOK,

CONTRACTOR

And Constructor, House-mover and General Repairer. Pile Driving, Trestle Work and Foundations a specialty. Leave orders at Owens, Mitchell & Co.'s, Second street. s3d3m

C. F. ZWIGART, JR.,

DAILY MEAT MARKET.

Corner of Second and Sutton Streets.

"HELLO!"

MAYSVILLE, SARDIS AND MT. OLIVET TELEPHONE COMPANY.

Messages promptly delivered. Maysville office at Parker & Co.'s livery stable.

WEATHER CROP.

Latest Bulletin Issued by the Agricultural Department.

THE CONDITION AND AVERAGE.

Cool Weather and Frosts Do Considerable Damage in Some States. While Others Report a Very Favorable Outlook—No Reason for the Farmers to Complain.

WASHINGTON, Sept. 14.—The weather crop bulletin for the past week, issued by the weather bureau, gives the following information:

New England—Light frosts on 8th and 9th, in lowlands; very little damage. Corn cutting begun and the crop is above the average. Potato rot not increasing. Cranberry crop is estimated at slightly below the average.

New York—Seeding well advanced. Buckwheat harvest begun; large crop. Some corn cut. Some potato rot, but prospects good. Hops and grapes below the average. Tobacco needs two weeks to mature.

Pennsylvania—The cool nights were unfavorable to the maturing of corn and tobacco, the latter is being cut as rapidly as possible and promises the largest and finest crop ever raised in the state. Potatoes are about all lifted; very little rot. A heavy buckwheat crop. Seeding proper will begin next week.

New Jersey—The cool wet weather has greatly retarded plowing and seeding and maturing of fruit, vine truck and corn. Pastures are much improved in all sections. Potatoes are yielding well, but little rot is reported.

Maryland and Delaware—Heavy rains retarded seeding and caused potatoes to rot and canning interests to suffer. Late tobacco was improved. The yield of fruit and vegetables will be large.

Virginia—Some tobacco being cut. Warm, dry weather needed. Light frost on Wednesday and Thursday in the mountain districts, but no damage reported.

North Carolina—A dry and favorable week for farm work, but cool nights were injurious to cotton; the crop is badly rusted; is shedding and opening very slowly. Tobacco is light and of poor quality. Wheat and oats seeding is in progress.

South Carolina—The cool weather and excessive rains of previous week caused rust, shedding and rotting of cotton bolls; 25 per cent. injury full.

Alabama—Cotton continues to shed; the cool dry weather caused the plant to stop blooming; the crop is badly diseased, and the yield will be reduced 25 per cent. All other crops are needing rain.

Mississippi—Cotton is opening rapidly in the southern part of the state. A late season would develop some top crop in the delta and northern counties. A large hay crop is saved. Showers benefited crops generally.

Louisiana—Cotton on the uplands has fallen off generally, owing to rust, blight and shedding, but is somewhat better in lowlands. Rice and cane were especially the late crop, and is suffering from drouth. Corn and hay are being housed. All gardens need rain.

Arkansas—The weather has been too cool for cotton, but was favorable for corn and other crops. Cotton picking has commenced. The cool nights continue, and the cotton continues to fall off slowly.

Texas—The first crop of early-planted cotton is generally good; showers have improved late cotton and the top crop over the northern, central and eastern portions; in other portions the growth has stopped and rain would be of little benefit. Worms have disappeared.

Tennessee—Cotton opening slowly; some rust and shedding reported. Fall seeding delayed by drouth; rain needed in central and western sections for plowing. Peanuts injured by cool, dry weather. Late potatoes doing well.

Kentucky—The growth of all crops has been retarded by cool, damp weather, and warm, sunshiny days are required to mature them. The early tobacco is being cut, but generally the crop is very late. Fall plowing is progressing. Corn is very green for the season and will not be out of danger from frost before the 25th.

Ohio—Corn will be matured in northern sections in two weeks; in the middle and southern sections in one week, and is about safe from frost in the central portion of the southern section at present. Wheat seeding is progressing finely. There was a large yield of potatoes. Fall pastures are short and need rain. Frost on the 8th, 9th and 10th, but no damage.

Michigan—The weather has been a little too cool for corn, but the crop will be safe in ten days, some early being cut; cutting will be general the latter part of the coming week. Light frosts occurred the 8th and 9th in the interior of the state, but no damage reported. Seeding is progressing steadily.

Illinois—Corn will be safe in northern counties by Oct. 1, in the central and southern counties 70 per cent. is now safe, and the remainder will be safe on Oct. 1. Plowing is nearly completed in southern counties and seeding has begun.

Indiana—Reports from all portions of the state indicate that most of the corn will be safe from frost by October 1. The past week has been too cool and corn is maturing slowly.

Iowa—Corn has made fair progress, about one-third being ripe enough to cut and shock; one-third will be beyond danger of frost in ten warm days, and the balance needs three weeks. The potato harvest has begun and all indications of a heavy yield.

Wisconsin—Ten days without a heavy frost will fully mature all that remains of the corn crop, which is about one-third of a crop in the northwestern portion, and about half a crop in southeast portion of the state. Tobacco is safe and is nearly all housed. The ground is extremely dry.

Minnesota—Corn has improved greatly this week, and ten days of warm weather will place it beyond danger from frosts. Threshing progressing; wheat grades high and yield is good. Corn will be below average. Fall plowing commenced.

North and South Dakota—Conditions were favorable for completing the harvest, stacking and threshing in North Dakota, and for stacking, threshing, marketing and haying in South Dakota. Corn is maturing finely in extreme southern portion, elsewhere is frosted, but fair. The ground is dry in both states.

Missouri—Corn maturing well; early planted is out of danger from frost, but late corn needs ten days of good weather. It is too dry for fall seeding.

Kansas—All crops secure from frost except late corn in the northern counties, which has been greatly improved by rains, and will be safe by the 20th or 25th.

Colorado—Corn is being cut in South-eastern Colorado. Elsewhere it is late. The potato crop will be excellent. All fruits are ripening well. No frosts in the agricultural districts during the week.

Nebraska—The week was cold and unfavorable for corn, which is ripening slowly and unevenly. The bulk of the corn crop will be out of danger in from ten days to two weeks in north Nebraska.

Oregon—Threshing is about over, and wheat yields from 30 to 50 bushels per acre. Corn is a good crop. Hops sustained considerable damage from lice.

California—In northern California the conditions were favorable for fruit, grapes and other crops, with hops turning out well. In southern California the weather was hot and sultry, and injurious to fall crops.

SHOCKING SIGHT.

Pacific Islanders Jump Into the Sea Among a Number of Sharks.

SAN FRANCISCO, Sept. 14.—The schooner General Banning arrived from Flents Island yesterday with a cargo of coconuts. Her commander, Captain Spring, reports that while loading the cargo, his vessel was twice blown out to sea by severe storms. On each occasion about one hundred natives were on board, and they hastened ashore in canoes. The second time several canoes were capsized and the occupants thrown into the water.

The water swarmed with sharks, and many of the natives were torn limb from limb before they could be picked up by other canoes. Several islanders were dragged down. One young fellow plunged into the water with a long knife to save his father. Both, however, were torn to pieces. One young girl had almost reached a canoe when a shark seized her by the middle and dragged her down. Out of thirty-eight people who were thrown into the water, eight were seized by sharks and killed, and one man had a leg bitten off.

SHOT IN THE NECK.

Quarrel Between Indiana Farmers Results in One Receiving a Fatal Wound.

TERRE HAUTE, Sept. 14.—A probable murder was committed in the country south of this city Saturday, by the shooting of Chauncey VanCleave, a farmer, aged forty, by young Will Forbes, the twenty-two-year old son of Calvin Forbes, whose farm adjoins that of the wounded man. The two families have been in constant trouble with each other for some time.

Saturday afternoon VanCleave met the two Forbes on a road near the latter's house. They had a few words, when VanCleave drew his pistol. The boy was the quickest, however, and he shot VanCleave, the ball entering the neck, where it is still lodged. The wound is pronounced fatal by Dr. VanCleave, brother of the man shot, who is his attendant. The boy drove to this city and gave himself up. Later he was released on \$1,500 bond to await the news from the bedside of the wounded man. If he dies the defendant will be rearrested and the bail increased.

Baby Mystery Explained.

INDIANAPOLIS, Sept. 14.—The apparent desertion of a babe by its mother in the New York store on Friday, the infant being left with Mrs. J. F. Coburn, of West Morris street, has led to sensational charges against members of the family. It is claimed that the desertion was a ruse on the part of Mrs. Coburn and her daughter, the latter being the mother of the babe, and done for the purpose of getting the child into the house without revealing its parentage. It is also charged that the mother went to a prominent business man and wanted him to adopt the child and referred him to Mrs. Coburn, but declined to give the names of the father and mother. Mrs. Coburn denies the story.

Announcing the End of the World.

INDIANAPOLIS, Sept. 14.—Religious circles in this city are evincing a great deal of interest in the announcement by Dr. Joseph Jenckes, the scholarly rector of St. Paul's cathedral, that the world is coming to an end within the next ten years. He has prepared a series of sermons on the subject and is doing a kind of missionary work by warning every one he meets to flee the wrath to come as the end of the world is certainly near at hand. Dr. Jenckes is one of the most learned divines in the city and has been making a special study of the Bible as it relates to the second coming of Christ.

Bud Rial Captured.

OXFORD, O., Sept. 14.—The excitement over the depredations of the desperado, known as Bud Rial, continued all day Friday. Vigilant and persevering search was made until Friday night at a late hour. He was found then at Liberty, Ind., where he had attempted to break into a house, and was committed to the jail of that place. An excited crowd surrounded the building. For the present, at least, Rial is beyond Oxford's jurisdiction. The lady whom he assaulted is still suffering from her injuries.

RUN DOWN AT SEA.

Two Vessels Collide in Mid-Ocean.

ONE INSTANTLY DISAPPEARS.

The Other Proceeds to Queenstown in a Battered Condition—The Destroyed Vessel an Unknown Coasting Schooner. Other Dispatches from Across the Ocean.

LONDON, Sept. 14.—The steamship Arizona, of the Guion line, which left New York on Saturday, Sept. 5, for Liverpool, arrived yesterday at Queenstown in a battered condition, after a perilous voyage across the Atlantic. Early on the morning of the 6th, while the Arizona was steaming rapidly in a fog, an unknown sailing vessel, believed to be a large coasting schooner, collided with the Arizona.

The shock was very great, and aroused the passengers from their beds. For a time the greatest excitement reigned, until it was found that the steamer was not, as many feared, about to go to the bottom. The stem of the schooner struck the Arizona's port quarter. Thirty feet of the rails of the steamship deck were carried away and a life-boat smashed. The deck was considerably damaged, and several plates of the vessel's side were badly indented.

While the extent of the injury to the steamer was being ascertained, life belts were prepared for the use of the passengers, and every preparation possible made for the saving of life in case the steamship should prove a wreck. Fears of such a catastrophe were, however, soon allayed, though it was a long time before the passengers recovered from the shock of their sudden awakening.

Search was made for the colliding schooner, but not a sign could be seen, nor was a cry heard. The terrible shock had apparently crushed the sailing vessel in a twinkling, and caused her to founder. Part of the bowsprit of the schooner remained on the Arizona's deck! and other wreckage indicated the fate of the unfortunate mariners. The Arizona's machinery had not suffered by the collision, and the voyage was pursued at the usual speed, and with no further accident.

FIFTY LIVES LOST

By the Collision Between the Taormina and Thessalia.

ATHENS, Sept. 14.—The corrected estimate of the number of persons drowned as a result of the collision off Cape Colonna between the Italian steamship Taormina and the Greek steamship Thessalia, shows that fifty persons lost their lives by the sinking of the Taormina. Of this number ten were saloon passengers.

Previous estimates received placed the number of drowned at over one hundred. The Taormina had forty-eight passengers. Among them was an American named John C. Oliphant. Her crew numbered forty-nine persons. Of the whole number on board the steamer only the second officer and thirty others were saved. According to these figures sixty-six persons were lost.

Germans Defeated in East Africa.

BERLIN, Sept. 14.—Further particulars have been received of the defeat of the Germans in East Africa by the natives. Captain Zelewski and Officers Zitewitz and Pierch, Dr. Dunschow and four non-commissioned officers are missing. Only two officers, Tettelnborn and Heydebreck, and two non-commissioned officers are known to have escaped. Three hundred of the blacks under German command were killed and a large quantity of guns and ammunition were lost to the enemy. The victorious natives followed up their success without mercy, killing all they got in their power.

Papal Nuncio for Canada.

ROME, Sept. 14.—It is stated in Vatican circles here that the pope will shortly appoint a nuncio to Canada to act as an intermediary between the holy see and Canadian Catholics. Some doubt is entertained here as to whether Canada has the right or inclination to receive a papal nuncio in an official capacity.

Cholera on Warships.

BOMBAY, Sept. 14.—Cholera in a severe form has broken out on board her majesty's ship Blanche and her majesty's ship Marathon, now at this port. There have been twenty-eight cases of that disease on board the two ships within twenty-four hours. Six deaths have already occurred.

Foolhardy Undertaking.

LONDON, Sept. 14.—A Swedish captain has started in a row-boat to row from Gothenburg to Hamburg, and thence to London. The attempt was considered very foolhardy, and efforts were made to prevent it.

AN INCENDIARY FIRE.

Twenty-Nine Houses and Part of a Catholic Church Burned.

QUEBEC, Sept. 14.—Fire started Sunday morning in a grocery store occupied by Oulett, at Cape Blanc, and before the flames were gotten under control, had destroyed twenty-nine houses and a portion of the Roman Catholic church.

A portion of Oulett's place was found to have been saturated with coal oil. When this fact got noised an infuriated mob procured a rope, and capturing Oulett, were about to lynch him when the police rescued him. He has been safely lodged in the city prison. Cape Blanc is a Quebec suburb.

Merchant Arrested for Check-Raising.

RICHMOND, Sept. 14.—J. D. Austin, a merchant, residing near Salisbury, N. C., has been arrested here charged with raising a check of \$30 to \$5,000.

COMMERCIAL EVENT IN EUROPE.

Interesting Statements Respecting the Most Notable One of the Year.

WASHINGTON, Sept. 14.—Consul General Mason, of Frankfurt, in a report to the state department on what he terms the German crisis in breadstuffs, presents some very interesting statements respecting the most notable commercial event of the year in Europe—the Russian decree forbidding the exportation of rye from Russia to any foreign country. This Mr. Mason regards as equivalent to official declaration.

Harvests of cereals in Russia is so deficient that the export of Rye must be forbidden in order to avert danger of famine there. Mr. Mason presents some data which shows how seriously this unexpected edict is likely to affect the bread supply of Germany. Very little pure wheat bread, he says, is eaten by the middle and lower classes in Germany. The "staff of life" to a vast majority of the German people is black bread, made with flour ground from a mixture of rye and an inferior quality of wheat. The consumption of this material is so enormous that Germany imported 947,375 tons of rye, of which 85 per cent., as well as 55 per cent. of the whole import of wheat into Germany, came from Russia.

The recent edict therefore cuts off nearly five-sixths of the entire foreign rye supply of Germany. How difficult it would be to fill this great deficit by increased importations from other countries, Mr. Mason says, will be evident from the fact that the entire export of rye to Germany, from 1884 to 1888, from the six countries which rank next to Russia as producers of cerea, averaged but 6,142,331 bushels a year. The average of rye export from these countries during this period was as follows: Roumania, 2,592,333 bushels; France, 1,683,000 bushels; United States, 1,272,666 bushels; Canada, 381,666 bushels; Turkey, 132,000 bushels; Serbia, 80,600 bushels. This is hardly one-fourth of the rye export to Germany from Russia last year.

Mr. Mason thinks it doubtful, in view of the short cereal crops which prevail this summer, more or less uniformly throughout Europe, whether France, Roumania or Serbia will have any considerable surplus of rye for export. The deficit in Germany therefore cannot be filled from any known source of supply on that side of the Atlantic and the effect of the situation upon the rye market has been startling. A year ago rye sold in Berlin for \$39 per ton of 2,240 pounds. On the 3d of August last the effect of the meagre harvest had raised the market price to \$52.24 per ton. Then came the Russian edict and within two weeks the price had risen to \$81.88 per ton. Add to this a short and inferior potato crop throughout nearly the whole of Germany, and it will be seen, Mr. Mason says, that the food question there has assumed an ominous aspect, and in the end the people of Germany, like those of France and England will have to draw upon the well filled granaries of the United States for a large part of their food supply during the coming year.

CURTIS' CRIME.

The Noted Actor Still Claims Ignorance of the Murder.

SAN FRANCISCO, Sept. 14.—Actor Curtis still claims he remembers nothing about Friday morning's tragedy and will not talk of anything but his theatrical record. Officer J. J. Allen has sworn to the complaint in Judge Rex's court, charging Strelinger with the murder of Officer Grant. The police are fast completing the chain of evidence against him, and are leaving no stone unturned to lay bare all the facts.

The street where the murder took place has been critically examined, and the planks with the bullet holes in the fence opposite have been sawn out and put away as evidence. The police have found a man who saw Curtis in the custody of Grant of Sixth street, near Folsom. He speaks English imperfectly and has not been taken before an interpreter yet, but he made the authorities understand that he knew Grant and also identified Curtis as the man Grant had in custody. The police expect to find the man who saw Grant arrest Curtis.

Farmers Organizing Against Burglars.

BELLAIRE, O., Sept. 14.—Thieves and robbers have been terrorizing the country just south of here, along the line of the B. & C. railroad. The residences of James Brown, T. H. Taylor and Jefferson Nelson, of Ozark, were entered, and a lot of valuable goods and money were stolen. Mr. Taylor is the heaviest loser, being minus a good sum he had laid up for a rainy day. At Crab Apple, James Thompson and George Brown suffered the loss of a quantity of silverware and other small goods. Other robberies are reported. The farmers are organizing for defense.

Found Dead in His Buggy.

MECHANICSBURG, O., Sept. 14.—This community received a shock Saturday that was felt by everybody. W. H. Wing, one of the wealthiest and most influential farmers, living about one mile east of here, was found dead in his buggy. Mr. Wing arose early and complained of his heart troubling him, but, paying no attention to it, hitched up his horse to his buggy and drove to town, attending to some business, and then returned home, and was found in front of his house by some of his family dead. It is supposed heart disease was the trouble.

Highwaymen Hold Up a Saloon.

KANSAS CITY, Sept. 14.—At 10 o'clock Saturday night three highwaymen entered the saloon of Tony Crandall on the Southwest boulevard, and "held up" the inmates, five in all, robbing them of their valuables. Crandall attempted to resist, and was beaten over the head with revolvers, his watch, diamond pin and all the money in the cash drawer being taken. The robbers then leisurely helped themselves from the bottles and took their departure.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

MONDAY, SEPTEMBER 14, 1891.

A GENTLEMAN from Brown County, O., was in town this morning and stated that he will subscribe \$1,000 to start a shoe factory here. Why don't some one take hold of the matter and see what can be done?

The Frankfort correspondent of the Cincinnati Enquirer is trying his best to show that the Constitutional convention has no love for Governor Brown and is trying in every way to abridge and take away his powers.

COLONEL W. O. BRADLEY is now talked of for a position in President Harrison's Cabinet. He will be expected to swing Kentucky into line for the Indian at the next National convention if he is placed in charge of the Department of the Interior.

The Cincinnati Post charges that the Republican Campaign Committee is trying to raise a corruption fund of \$30,000 for use in that city. Under the new Australian ballot system, the use of money at elections will be prevented to a great extent, and most of this boodle will, it is safe to say, stick in the pockets of the "workers."

The champions of the McKinley tariff predicted last year that the effect of their measure would be to increase the wages of American workers. What has been the result? The New York World that generally keeps posted on all such matters says there have been far more reductions than increases. Only a week or so ago Massachusetts cotton manufacturers made a cut of ten per cent. in the pay of their employees.

"The tariff" on sugar was repealed not in order to relieve the tax-payer, but to fasten more firmly upon the country the policy of protection," says the Philadelphia Record. "Concurrently with the abolition of the sugar tax the average of protective duties on other necessities of living was raised from 49 to 67 per cent. The tax on sugar went into the Federal Treasury and helped to pay off the public debt. The added protective taxes, on the contrary, never reach the Treasury. They go into the pockets of the people who devised them and who elected President Harrison in order to have them put in shape for collection. But nearly always some good comes out of evil doing. There never was a more effective object-lesson to show that tariff duties are taxes than has resulted from putting sugar on the free list. People who were paying 7 cents a pound for granulated sugar a year ago, and who are now getting it for 4½ cents a pound, can no longer be bamboozled into the belief that protection protects the consumer. And they will ask for the repeal of duty on coal, salt, lumber, wool and other things of use and necessity, knowing that they will reap the full benefit therefrom."

Foster's Forecasts.

Foster, the weather seer, in his weekly forecasts says: "The next storm wave will be due to leave the Pacific coast about the 14th, cross the Rocky-Allegheny valley from 15th to 17th and reach the Atlantic coast about the 18th. It will be at its greatest force in the eastern States about 17th or 18th, when it will make a record as more than an ordinary storm. Destructive frosts will follow this storm, especially in the northern States, and will reach much further south than is usual for this time of year. This storm and the one following it will be what has been popularly termed equinoctial storms as they will occur when the earth is near its equinoctial. Not the greatest storms of the year, but notable weather events were calculated for September, and I will be greatly surprised not to see long accounts in the newspapers, with displayed heads, relating notable weather events."

A Good Law.

The child labor law went into effect in Ohio, Monday, August 31st. This law does not allow minors under fourteen years of age to be employed at any kind of labor during the time they are required by law to go to school. The act also provides that children between twelve and fourteen years of age shall at no time be employed more than eight hours a day. The Chief Inspector of shops and factories announces that he will enforce the law to the letter.

A Minister's Opinion.

Mr. Jacob Connor, a German Baptist minister at Royer's Ford, Montgomery County, Pa., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, colic and cramp in the stomach. I have never used any medicine with better or more satisfactory results. I consider it one of the best ever used in our family. For sale by Power & Reynolds."

River News.

The New South and Stanley pass down this afternoon and St. Lawrence to-night. Due up: Carrollton for Portsmouth and Boston for Pomeroy.

The Ripley Bazaar says: "The White Collar Line is doing itself an injury, unknowingly perhaps, in holding freight over for the Portsmouth packets. Our merchants are complaining of not getting their goods until a day later than they should receive them." The same complaint is made by Maysville merchants.

There is a very perceptible increase in river traffic, and all the packets are doing a good business. At all the boatyards and docks along the river there is a hum of business, new boats are being built for the various trades, immense freight-carrying barges are on the docks, and the number of steamers undergoing enlargement and repairs is innumerable. Old boatmen, as well as new ones of enterprising spirit, predict an immense fall trade, especially from Pittsburg to the Mississippi valley, says an exchange.

The aquacycle is a late invention by an Indian named Baum. A few days ago Baum launched his wheel on the Wabash and challenged Captain Walls, of the steamer Dauntless, to race with him. In the race the aquacycle surprised the spectators by its easy and rapid progress over the water. The aquacycle consists of a pair of conical elliptical-shaped cylinders that are eleven feet in length, which lie in the water and which are filled with compressed air. These cylinders are twelve inches in diameter, and are capable of sustaining a lifting capacity of 1,000 pounds. They are placed about three feet apart, and a miniature deck is made thereon of the lightest material, and on which, in the center, is located the wheel or motive power. The propeller is forty-one inches in diameter, and provided with fourteen buckets, which revolve rapidly. The wheel is inclosed. On the outside of the casing are the cranks and pedals, which are the same as in use on an ordinary bicycle. Over the wheel a saddle is provided, and the steering apparatus is in front, just as in a bicycle.

For the Farmer.

W. B. Cecil, of Boyle County, raised 300 bushels of wheat on 9 acres this year. Some Scott County farmers are holding their wheat for \$1. A large acreage will be sown in that county this fall.

Charles B. Ecton, of Clark County, is cutting a crop of very fine tobacco. He planted it three feet by fifteen inches, topped it all from eighteen to twenty-four leaves and thinks it will make from 1,800 to 2,000 pounds per acre.

Says the Western Tobacco Journal: "It would be far better to lose a part of the crop by frost, and save the earlier portion of it fully ripened, than to rush in and cut the whole crop green, expecting it to come out fairly well in the cure. Unripe tobacco can never be cured with the properties of ripe leaf, for the properties and conditions are unlike, and no curing, no matter how skilled, can make the desired change."

In answer to the question, "Does sheep raising pay?" Dr. F. Fowler contributes to the Stanford Interior Journal the following: "In August of last year I bought sixty-nine ewes at \$4.50 per head and three Southdown bucks at \$10.33½ per head, making \$349 for the entire lot. During May I sold 351 pounds of wool for \$87.87; in June I sold sixty-one lambs \$253 and premium of \$2.50, and in July twenty-three lambs for \$72.50, making my receipts for all, \$415.62. It will thus be seen I made 120 per cent. in cash on the investment. I have left over five late lambs, worth \$10 or \$12, and one Southdown buck lamb worth \$10."

Turf Topics.

Mr. W. T. Threlkeld, brother of Mr. James E. Threlkeld, is owner of Rene Silver that defeated a good field in one of the trots at Winchester fair Thursday.

"Uncle" Jack Hook won the \$1,000 stake for two-year-olds, with his fast filly Annorean, by Cyclone, in 2:29½, at St. Louis, last week, defeating her old rival, Bermuda Boy, who was third.

Milton Young, of McGrathiana Farm, Lexington, received \$60,000 from sales and stud fees in 1890 and his receipts the present year from the same sources have been \$65,000, notwithstanding his crop of yearlings was cut short one-half by epidemics. In 1890 there were 255 mares bred to McGrathiana stallions, more than was ever bred in any one establishment, but this year the number has been increased to 347.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

MASONIC NOTICE—Stated meeting of Mason Lodge No. 342 this evening at 7:30 o'clock. Work in first and third degrees. All Master Masons invited.

THOMAS HANFORD, W. M.
H. C. McDougle, Secretary.

A western farmer recently thrashed 1-200 bushels of wheat and two tramps in one day.—Boston Bulletin.

THE MARKETS.

Cincinnati Live Stock Market.

(Saturday.)
Receipts of hogs, 46; cattle, 143; sheep, 465. Shipments of hogs, 517; cattle, 236; sheep, 766.
HOGS—Common, \$3.50@4.40; fair to good light, \$4.50@5.15; packing, \$4.50@5.00; selected butchers', \$4.50@5.30. Market steady.
CATTLE—Common, \$2.00@2.75; fair to medium, \$3.00@3.75; good to choice, \$4.00@4.50; fair to good shipping, \$4.00@5.00. Market easy.
VEAL CALVES—Common and large, \$3.50@4.50; fair to good light, \$5.00@5.75. Market lower.

Cincinnati Tobacco Market.

(Friday.)
The offerings continued large and there was no change of price from former days of the week. Good and fine leaf and color trashes and lugs held active and sold at full prices. There was a fairly good demand for common trashes and lugs at prices of the previous day. Mediums, common leaf and red tobaccos are unchanged from former reports, the demand being limited.
Of the 603 bbls 154 sold from \$1 to \$3.95, 155 from \$4 to \$5.35, 91 from \$6 to \$7.95, 48 from \$8 to \$9.90, 79 from \$10 to \$14.75, 60 from \$15 to \$19.75 and 16 from \$20 to \$24.

TO ANYONE WHO WILL SEND US SIX NEW YEARLY SUBSCRIBERS TO THE

WEEKLY BULLETIN

EITHER OF THE FOLLOWING WORKS:

THE WHITE HOUSE COOK

BOOK,

The most complete, most practical, most convenient and BEST book of the kind published. It is elegantly illustrated with numerous engravings on steel and wood, including a magnificent steel engraving of the present lady of the White House, and accurate portraits of the wives of all our Presidents. Comprising 521 large quarto pages and over sixteen hundred choice household recipes. Just the book every family should possess. The subscription price of the WEEKLY BULLETIN is only \$1.50 per year.

NATURAL HISTORY FROM

A NEW STANDPOINT,

By the late P. T. Barnum—a magnificent volume filled with instruction and entertainment. It presents a complete and thorough study of the nature, habits and characteristics of all the Beasts, Birds and Reptiles of the earth, together with stories of their capture in their native wilds, combining science, narrative and adventure. It is profusely illustrated with four hundred drawings by famous artists, and is the most entertaining book published. The cash must accompany all orders.

Dr. Emery Whitaker and wife, of Covington, after spending a few days here with his parents, have gone to Georgetown, O., to visit her father, Hon. Chilton A. White.

Haucke's Reed and Brass Band.

Speaking of the Labor Day demonstration at that place, the Times says: "Haucke's Reed and Brass Band completely captured Portsmouth. Nothing was too good for them. Two thousand people met them at the grade Sunday night. The committee met them at South Portsmouth. Red fire was prepared and the band took a position on the hurricane deck of the ferryboat and played 'My Old Kentucky Home' as the boat crossed the river at slow speed, while the burning red fire revealed their uniforms and bright horns. Never did music sound more sweetly, and never was the fine old plantation melody better played. When the boat neared the Ohio shore 'Dixey' was played in a manner that caused cheers to ring from one end of the grade to the other.

"In addition to good musical talent on the part of individual players, intelligent one man power is an essential to a good band. This the Maysville band possesses in an eminent degree. The one man in this case is George Tudor, Esq., the wealthy stove dealer of Maysville. Mr. Tudor makes no great pretensions to being a musician himself, but he is an enthusiastic lover of music, and this band is his pet—his idol. He belongs to the band, and occupies the somewhat modest position of cymbal player. Think of one of Portsmouth's wealthy business men, worth a hundred thousand dollars, in uniform, marching with the boys, between the bass and snare drum, playing the cymbals! We wish Portsmouth had such a business man. We wish, in our heart of hearts, that Portsmouth had such a band as Maysville possesses."

Mrs. Regina F. Schatzmann.

Mrs. Regina F. Schatzman, wife of Mr. Frederick Schatzmann, died this morning shortly before six o'clock at the family residence on West Second street. She was born at Baden, Germany, and was sixty years, six months and five days of age. Her husband survives her, and she leaves seven children, among them Mr. Joseph Schatzmann, the china and glassware merchant of Market street. The funeral will take place Tuesday afternoon at 4 o'clock at the home. The remains will be interred in the Maysville cemetery.

Jones Captured.

Elijah Jones, who shot and badly wounded Jim Davis at Mayslick a week or two since, was arrested Saturday at Cincinnati by Deputy Sheriff Beatty of Bourbon County. The officer ran across Jones on Fourth street. Davis is getting well. The ball that struck him was aimed at George Brown with whom Jones was quarreling. Jones was brought up last night by Sheriff Alexander and Marshal Heflin and lodged in jail.

Last Chance.

We have sent us on sale one Princess, 26-inch, cushion tire Safety bicycle at \$65; one Princess, 30-inch, cushion tire Safety bicycle at \$100; two Clamx, 30-inch, plain tire Safety bicycle at \$65; one Princess, 26-inch, plain tire Safety bicycle at \$35. If not sold before Thursday we will ship back to the factory. Call immediately and get one.

14d2t

KACKLEY & McDOUGLE.

JOHN BRADFORD, who is a duster peddler, and says he is from Maysville, was run in by Officer Clark, for a plain drunk and disorderly conduct. Fine and costs \$6.30.—Iron-ton Iron-tonian.

THE Knights of Pythias have instituted a lodge at Quincy. It is known as Quincy Lodge No. 91, and starts off with sixteen members. The lodge was organized by Vice Chancellor of the State John L. Chamberlain, of this city.

LIEUTENANT GOVERNOR ALFORD, Judge Matt Walton, Mr. D. F. Frazee and other Lexington capitalists will be here to-morrow to take a look at the fuel gas works. A party of Cincinnatians will also be here on the same business.

A SPECIAL vestibuled train passed East yesterday morning bound for Old Point with the General Passenger Agents of all the big roads, who go to attend the annual meeting of their association. They were the guests of General Passenger Agent Fuller of the C. and O.

OWING to increased patronage and the demand for more commodious accommodations, I have leased for a term of years the second story of Mr. George T. Wood's drug store, where I can be found after the first day of October.

s10d1t G. M. WILLIAMS, Dentist.

It now turns out that Lewis Perrant, the Harrison County farmer who was reported to have been assaulted and robbed, inflicted the wounds himself. He confessed, and told where he had hidden his money. He is thought to be insane, and has since attempted to take his life.

MRS. JULIA TAYLOR, daughter of Mr. S. M. Worthington, who has been visiting in the county for some weeks, has been recalled to her home at Bowling Green by the serious illness of her sister-in-law, Mrs. Vachel Worthington, daughter of Mr. Harvey Rice, of the Lewisburg neighborhood.

NOW THAT the elections and fair, racing, &c., are over, and the wheat and tobacco is being handled generally, Frank Owens Hardware Co. are bringing to the front for sale hunting coats (canvass and leather), bird bags, loaded shells, ammunition of all kinds, and sportsmen's wear generally. Call and equip yourself in full for the winter's sport. Prices will suit the purchaser.

QUITE a commotion was created at the corner of Third and Bridge streets yesterday afternoon about 3 o'clock. As a street car was passing there was suddenly a loud report, like the crack of a pistol, under the car. Several women were among the passengers, and they were badly frightened for a few minutes. Investigation showed that the report was caused by the explosion of a big torpedo that had been placed on the track.

THE city of Maysville will be within twenty days the best known city in America. The recent fuel gas invention will create more excitement throughout the country than all the oil and gas wells put together. Frank Owens Hardware Company have just received, clean and fresh, their vast stock of guns, imported direct from foreign makers, breech-loaders and muzzle-loading; also American makes, all of which they will sell very low.

A MAN who gave his name as Jarvis complained to Marshal Heflin last night that he had been held up at Front and Market by a couple of negroes and robbed of a watch. He told another story on the street that he had been held up at Second and "Cow" streets. The fellow was evidently no good, as he disappeared soon afterwards and could not be found, although he told Captain Heflin he intended stopping at the Central Hotel.

THE Berlin correspondent of the Therapeutic Gazette says that a remedy for blood poisoning caused by the bites of snakes and rabid dogs has been discovered in Africa by a Dr. Engels in the "wild-growing, black, noble palm." Five hundred negroes bitten by poisonous snakes were treated with the extract of the noble palm, and four hundred and eighty-seven were cured in five days. Of sixty-seven farmers and negroes bitten by rabid dogs sixty-five were saved, while two died of weakness. The remedy is injected under the skin, and causes a moderate fever, not exceeding 35.5° C. On the third day the patient is without fever, swelling and inflammation of the affected part have disappeared, and on the fifth, or, latest, on the seventh day, the patient is cured.

A Life Sentence.

At Owingsville Saturday, George T. Green, charged with shooting and killing his brother-in-law, John B. Davidson, near Salt Lick Station two years ago last May, was convicted and sentenced to the penitentiary for life. Green was a prominent citizen and at one time Deputy Sheriff of Bath County. He secreted himself by the roadside and shot Davidson with a double-barreled gun, but Davidson lived long enough to tell that Green shot him.

CHINA AND JAPAN.

Another Steamer Arrives in the San Francisco Port.

SOME STARTLING ADVICES.

Protest Against the Dilatory Manner in Which the Chinese Government Dealt with the Recent Outbreaks Against Foreigners—One Hundred Houses Destroyed by a Landslide—Other Late News.

SAN FRANCISCO, Sept. 14.—The steamer China has just arrived from China and Japan, making the trip from Yokohama in twelve days, eleven hours and fifty-five minutes. It was thought she would attempt to break the record made by the Vancouver line of steamships, but she did not do so. She brings advices from China to Aug. 30.

The British minister, Sir John Walsom, made a strong protest against the dilatory manner in which the Chinese government dealt with the recent outbreaks against foreigners, and put three questions to the government; asking first, why an edict on the subject of the riots was not dispatched through the empire by telegraph; second, why the Wuhu magistrate who tried to stop the riots was degraded, while his superiors, who did nothing, were not punished; and third, why the punishment of the guilty at Wusuch was delayed. Li Hung Chang answered these questions as follows: First, it is not the custom of China to send edicts by wire; second, the magistrate was degraded for other reasons, and third, the rioters had been punished—two being executed and the others otherwise punished.

The North China News says the reply is a palpable evasion, and only shows that China cannot be depended upon by the foreign powers. The paper continues: Meanwhile the powers do not intend to be satisfied with these replies, and with what has been done by the Chinese government so far in the way of punishment and reparation. They have sent China what is virtually an ultimatum, and will not make an adequate reply. England's action is understood to be backed by other powers, and it is thought force will be used if China is not conciliatory.

Mob of Twenty Thousand People.
A mob of 20,000 persons gathered at Lung Chow in the province of Hunan recently, and prevented workmen from putting up telegraph lines. Ten thousand poles were burned and the workmen driven over the boundary. A society has been organized to keep the telegraph out. Great apprehension is felt by the inhabitants of the border district.

Missionary Assassinated.
Dr. Greig, a missionary doctor, has been assassinated by New Chang soldiers. British Consul Aytoun is investigating the affair.

One Hundred Houses Destroyed.
A landslide occurred in the banks of Yang Tze, opposite Chian Kiang. The people had sufficient warning to escape with their lives. About one hundred houses which stood on the tract of land which slid into the river were carried with it.

Two Wealthy Miners Murdered.
News has been received here of the death, in Perak, of W. MacTavish and J. M. Nelson, two wealthy mining men. Cholera was the cause of death in each case.

Populace Up in Arms.
There are serious troubles in Sin Tang, Dutch West Borneo, between the Dyaks and Malays. Three thousand of the former are in arms against the Malay rajah over taxes.

Effect of Floods.
By the recent floods in the To Ku Shima prefecture two persons were drowned. The damage to property was enormous. Three hundred and fifty-four houses were destroyed and over 600 were badly damaged. Thirty-one vessels were also lost.

China and Japan Notes.
Reports from Foo Chow of the killing of three missionaries up the country are unfounded. The German Roman Catholic bishop of Shantung has returned from Peking to Tien Tsin. It is said Li Hung Chang told him the late riots were only forerunners of more serious trouble and hinted that he hoped the bishop would be moderate in demands when he returned to "hantung."

The Italian cruiser Voltorno, which had orders to leave for Italy, has received new instructions, ordering it to remain on the station indefinitely.

There seems to be no foundation for the report that the son of Hsueh, minister to England, has been arrested as a member of a secret society.

The flood in Fukokoka, Japan, last month, caused a loss of thirty-two lives, and the destruction of nearly a thousand houses.

A club is about to be formed in Yokohama to be known as the National Practical Rights club. Its object will be to subdue the foreign residents by means of a firm policy and induce them to reflect on the justice of concluding treaties on equal terms.

A merchant has been arrested at Kobe who for years has been manufacturing Japanese old gold coins on an unprecedented scale. It is stated the man had thirty-seven accomplices of whom eighteen are already under arrest.

Two days' storm has visited the Bonin Islands, almost completely ruining the sugar cane crop, the staple product of the place.

A number of cases of cholera has been discovered in different parts of Japan. Precautions have been taken to prevent its spread.

The Japanese woman who quarreled with her mother recently in reference to her divorced husband, and killed her with a red-hot iron, has been executed.

Pirates are on the rampage in Japanese waters.

PARKERSBURG, W. Va., Sept. 14.—Saturday night George Price and Sylvester Dilworth were arrested and jailed here by a deputy United States marshal for moonshining. They are old offenders. They fought vigorously, even after they were handcuffed.

PASSENGER TRAIN WRECKED.

Twenty-Three Passengers Injured, Five of Whom Will Probably Die.

DENVER, Sept. 14.—Passenger train No. 314, bound toward Denver on the Graymont district of the Union Pacific railway, was wrecked Sunday morning about 11 o'clock near Beaver Brook station, and twenty-three passengers were injured, five of whom will probably die. The train was late and running very rapidly when rounding a sharp curve, the express car left the track and rolled down a fifteen-foot embankment. It was followed by the mail and two passenger coaches, one of which turned over twice before reaching the bottom. The train was loaded with passengers, many of whom were Knights of Pythias, who were returning from the Knights of Pythias state convention which was held at Aspen last week.

Those seriously injured in the wreck were left at Golden in the hands of physicians, while those not badly hurt were brought to this city and taken to their homes or the hospitals.

The seriously injured are: Mrs. Guttmacher, of Black Hawk, Col., collar bone broken, back hurt and internally injured; — Ruhfegermer, merchant of Black Hawk, internal injuries; George B. Tarr, conductor of this city, chest crushed and internal injuries; — Burnett, of Nevada, Col., spine injured and internal injuries; — Waters, injured internally.

It is not known exactly what caused the wreck, but as the train was a narrow gauge and the coaches very top-heavy, it is thought the train was running too rapidly for safety.

When the news reached Golden, Colo., a wrecking train was ordered out and was starting when Robert Pruin, an employee of the road, attempted to board the engine. In doing so his revolver fell from his pocket, the hammer striking a stone and the weapon was discharged, the ball taking effect in the man's neck, making a wound which will result fatally.

Convicts Strike.

SAN FRANCISCO, Sept. 14.—The convicts at work in the jute mill in the San Quinton prison struck yesterday, declaring they would not work until guaranteed they would be served with better food, more tobacco than allowed and that there would be less favoritism shown. After a time a conference was held between the prison directors and a committee representing the strikers. The convicts were told that a refusal to go to work would be punished by solitary confinement and that none of their demands would be acceded to. The strikers then resumed work.

Shot in Self-Defense.

COLUMBUS, O., Sept. 14.—The preliminary examination before Justice Gallaher of Patrolman George Felst, for the killing of Henry Webster, colored, early last Tuesday morning, continued till late Saturday evening. A number of witnesses were examined, and the evidence showed that Webster was a bad individual, and pulled a revolver on the officer when the latter attempted to effect his arrest. The magistrate discharged Felst from custody, on the ground that he had acted in self-defense.

Ex-Congressman Scott Recovering.

PITTSBURG, Sept. 14.—A special to The Times from Newport, R. I., says: Ex-Congressman Scott, of Pennsylvania, is slowly but surely improving. Yesterday he was able to take and retain solid food. His physician, Dr. Pepper, of Philadelphia, is so much encouraged as to warrant him in leaving town for a week. A local physician will have charge during Dr. Pepper's absence. Newport air has been decidedly beneficial to the patient.

Pleasure Yacht Run Down.

NEW YORK, Sept. 14.—A pleasure yacht containing four persons was run down and sunk in the Arthur Kills last night by a steam lighter. Only two of those on board the yacht were rescued. The others, Harry Fairchild and Walter Dodd, were swept away by the tide and drowned. Albert and Henry Stewart, the survivors, are strangely reticent about the affair.

Reciprocity with San Salvador.

SAN FRANCISCO, Sept. 14.—Minister Morales of San Salvador, arrived here Saturday night on the steamer San Juan. Mr. Morales will proceed to Washington where he will negotiate a reciprocity treaty between the United States and San Salvador. Mr. Morales ridicules the reports that war is imminent between San Salvador and Guatemala.

Peculiar Freaks of Lightning.

ALBERT LEA, Minn., Sept. 14.—During the thunder storm last night the house of Peter A. Peterson, of the town of Geneva, Freeborn county, was struck by lightning, and Chris Peterson, aged seventeen years, who was lying in bed, was instantly killed, although a brother, who slept with him, escaped. No serious damage was done to the house.

Fishermen's Fate.

HALIFAX, N. S., Sept. 14.—News has been received here that the Yarmouth fishing schooner Georgiana has been righted in Three Fathom harbor and the dead bodies of four men found in her cabin.

Insurance Swindler Dead to Rights.

ST. LOUIS, Sept. 14.—Documentary evidence damaging to B. R. Musgrave, who tried to swindle various insurance companies by leaving a skeleton to burn in a log cabin near Terra Haute, Ind., has just been furnished by Parson & Company St. Louis, dealers in doctors' paraphernalia. It was this firm that sold the skeleton to Musgrave.

Killed by Falling Timber.

HOPKINSVILLE, Ky., Sept. 14.—Sandy Grant, colored, who was employed by C. A. Gardner, of Montgomery county, to haul lumber for a barn, was struck and instantly killed Saturday by a heavy piece of timber falling and striking him on the back of the neck.

Johnstown Survivors Burned to Death.
NEW HAVEN, Sept. 14.—Mary O'Neal, aged eleven years, a survivor of the Johnstown flood, who had been living at Ansonia with her brother, was fatally burned Saturday night while playing near a stove, by her clothing catching fire. Her parents were victims of the Johnstown flood.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.
